ANDERSON PACK · QUICK GUIDE

Camping With Dogs

How Whisky and Echo come camping with us, from trailer camping and rooftop tents to the backcountry.

OUR TOP TIPS

01 Start with trailer camping
It's the easiest way to learn, with room for beds, toys and chews to keep pups comfy.

02 Use a ground stake and leads
Dogs stay close and follow park leash rules, without you holding leashes all day.

03 Clean paws before bed
A quick wipe with a paw washer and towel keeps the tent clean. Check for bugs too!

04 Pack warm layers
Even in summer it gets cold at night. Bring dog jackets and base layers for tents.

05 Let them carry their gear
Backpacks with saddlebags, evenly balanced, at about 5–10% of their body weight.

06 Do a test run first
Set up the tent in the backyard or pick a campsite close to home for your first trip.

Pup packing list

- Dog sleeping bag or pad
- Collapsible bowls
- Food, snacks, poop bags
- Jacket and base layer
- Ground stake and leads
- Paw washer and towel
